Profile

A recent graduate of International Business and the founder of La Boutique, an online shop. That was a unique opportunity for me to get expertise in all aspects of business management. Adding to that I am a managing partner at Al Kamar For Real Estate, where I gained valuable experience in Real Estate.

Experience

Business Owner, La Boutique — 2019 - Present

Opening an internet business is difficult, so it was the ideal location for me to gather management, marketing, sales, and supply-chain expertise. In addition, I learned problem-solving, project management, communication, and a variety of other abilities.
